

# Responsible AI & Digital Sustainability in Practice

From dilemmas to action

A practical workshop for B Corps and other companies that want to turn responsible AI dilemmas into concrete actions.

## What you will explore

Organisational  
Readiness

AI  
Governance

Ethics &  
Quality

Digital  
Sustainability

Digital  
Sovereignty

## How the programme works

- 1 Full-day workshop (09:00–16:30)
- 2 Shared framework + checklist
- 3 Action Labs to identify two priority areas
- 4 Implementation period between sessions
- 5 3-hour follow-up webinar to share results, barriers and next steps

## Who should attend

- ESG / sustainability leads
- IT / digital / data leads
- Cross-functional change-makers
- Especially valuable when two colleagues join from the same company

## What participants will leave with

A shared language  
for responsible AI

Two prioritised  
focus areas

Peer insights from  
other companies

Practical actions  
for internal use
